This template is an adaptation of the template elaborated by Wojciech Myszka (see <https://kmim.wm.pwr.edu.pl/myszka/projekty>). The template worked successfully in the following tools:

- Overleaf.com – an on-line version; no installation required
- TeXStudio/TeXLive or TeXStudio/MiKTeX or TeXWorks/MiKTeX

Usage of the full version may require (e.g. for TeXWorks/MiKTeX):

- Python 2.7+ plus Pygments scripts installed; path to both should be set to the PATH environment variable – they are used to color source code keywords in programming language
- -shell-escape option for Latex compilation enabled – required by the minted Latex package
